

University of Pittsburgh Student Leave of Absence Policy Committee Charter

I. Preamble

This body is called the Student Leave of Absence Policy Committee (Committee). It is authorized by the Chancellor and will serve at the Chancellor's discretion. The Chancellor has authorized the Provost and Senior Vice Chancellor (SVC-P) to direct the operations of this Committee, consistent with the terms of this Charter. This Charter outlines the purpose, relevant background, scope, responsibilities, composition, and operations of the Committee, as well as the review process for any proposals generated by this Committee.

This document should be read in conjunction with Policy 01-01-01, Establishing University Policies, and all other applicable University policies, protocols, and procedures.

II. Purpose

The Committee is created for the purpose of proposing a new University Policy (or Policies) on Student Leave of Absence, as well as documents that will support implementation, which will govern situations in which students take a leave of absence (involuntarily or voluntarily) from undergraduate or graduate and professional programs.

III. Background

The University does not have a University Policy in place to govern situations in which students take a leave of absence (involuntarily or voluntarily) from undergraduate or graduate and professional programs. Various circumstances might compel University students to temporarily interrupt their enrollment in coursework, an interruption formally recognized as a leave of absence (LOA). The LOA might be voluntary or involuntary, might occur while the student is in good standing or on academic probation, and might be associated with a medical condition. While LOAs are currently an option for students at the University, there is no formal University guidance (e.g., a Policy) to assist students or administrators through this process. The University is developing this policy (or policies) to establish University-wide requirements that must be followed to ensure reasonable evaluation and responsible handling of a student's break from enrollment either before or after a semester begins.

IV. Scope and Authority

The Committee will recommend a new University Policy (or Policies), and supplemental documents (e.g., guidelines and procedures), which will govern situations in which students take a leave of absence (involuntarily or voluntarily) from undergraduate or graduate and professional programs. In doing so, the Committee's deliberations must address the following topics:

- **Consistency.** Ensure consistency in terms and procedures with other related University Policies (e.g., Policy 09-05-08, Termination of Registration).
- **Compliance.** Establish procedures and guidelines that comply with relevant federal/state/local laws (e.g., Americans with Disabilities Act, Civil Rights Act, FERPA).
- **Update.** Address and update relevant procedures and standards associated with taking a LOA (e.g., course registration and housing).
- **Clarity.** Provide clarity for students and administrators to better understand the processes for, and conditions of, the various types of LOAs (e.g., voluntary, involuntary, regular, extended).

V. Responsibilities

As provided above, the Committee is created to propose a new University Policy (or Policies), and its supplemental documents (e.g., guidelines and procedures), on Student Leave of Absence. To perform this function, the Committee has the responsibility to:

- Review and consider current University practices and processes related to LOA.
- Research and discuss best practices for LOA, including a benchmarking of peer universities' respective policies.
- Incorporate or address applicable federal/state/local laws and regulations in the proposed Policy (or Policies) and associated procedure.
- Establish a formal Policy (or Policies) governing LOAs that, to the extent possible: (1) allows students to take time away from studies, without formally withdrawing from the University, to focus on their well-being and/or other pertinent life circumstances; (2) does not count toward time limitations for degree completion; and (3) develops plans for students' return, allowing them to stay on track for successful degree completion.
- Consult with the Student Government Board (SGB) and the Graduate and Professional Student Government (GPSG) during the drafting stage(s) of the Policy (or Policies) and associated procedure(s).

- Consult with University Associate Deans during the drafting stage(s) of the Policy (or Policies) and associated procedure(s) to ensure various school standards (e.g., degree requirements) are appropriately taken into consideration.
- Recommend a draft Policy (or Policies) for review pursuant to the process described in Section VIII below and consider feedback received during that review.
- Recommend a draft procedure (or procedures) needed for the effective and efficient implementation of the proposed Policy (or Policies).

It is expected that the Committee will work in confidence to have full and frank discussion of all options. Individual members should maintain the deliberations of the Committee confidential and are expected to not discuss the content of the Committee's deliberations outside of the Committee, unless authorized to do so by the Committee. The broader community will have an opportunity to consider the Committee's proposals pursuant to the process described in Section VIII below.
