## POLICY STATEMENT

This policy establishes responsibilities and requirements for directed or sole source purchases. Directed or sole source purchases are an exception to the University of Pittsburgh Competitive Bidding Policy and are allowed under certain conditions for the purchases of goods or services from a directed or sole source without soliciting bids from multiple sources.

The Purchasing Services Department will approve a directed or sole source purchase on a case-by-case basis.

### Directed source

Directed source designates that a product or service, for specific and justifiable reasons, will be purchased from one specified supplier.

Following are examples of acceptable directed source purchases:

- The service requested is for existing equipment which can only be completed by the manufacturer or manufacturer's designated service provider.
- The requested product or service has unique design, performance, and/or quality specifications that are essential to a particular research protocol or teaching needs and are not available in comparable products.
- The requested product or service is essential in maintaining research continuity.
- The requested service or system requires a supplier with unique skills or experience.
